

Psicologia del Traffico
Unità di Ricerca

MEMORANDUM OF UNDERSTANDING

between the

**Chair of Work, Engineering & Organizational Psychology
of the Technische Universität Berlin**

&

**Research Unit in Traffic Psychology of the Università Cattolica del Sacro
Cuore of Milan**

&

Arusha Technical College

The Chair of Work, Engineering & Organizational Psychology of the Technische Universität Berlin, the Research Unit in Traffic Psychology of the Università Cattolica del Sacro Cuore of Milan and Arusha Technical College with this Memorandum express their interest to coordinate and collaborate in research on road safety in Tanzania, and to develop an academic and cultural exchange between members of the institutions. The parties strive to encourage direct contact between students and members of the involved faculties and institutes through a plethora of ways.

Intended forms of co-operation are:

1. Joint research on traffic safety in Tanzania to improve road safety education, decrease accident numbers and accident severity while gaining scientific knowledge
2. Joint presentation of the acquired knowledge at national and international conferences
3. Co-organisation and participation in lectures, seminars and conferences on the topic of traffic safety
4. Joint application for funding for traffic safety research
